The 2nd International Research Workshop in Computer Science and Information Systems

CALL FOR PARTICIPATION

October 14-16, 2022, Phuket, Thailand

Prince of Songkla University, College of Computing (PSU CoC) and the National University of Singapore, School of Computing (NUS SoC) jointly organise the Second International Research Workshop in Computer Science and Information Systems in Phuket, Thailand.

The objective of the three-day workshop is for participants considering pursuing graduate studies in a Master's or PhD programme in computing in Thailand, Singapore, or elsewhere to acquire and develop research skills in computer science and information systems.

This year's workshop presents research results and discusses trends in artificial intelligence, security, information systems and analytics. Participants can attend interactive courses conducted by experts from several universities.

Students interested in participating should submit a curriculum vitae and a statement of purpose to the organisers. The organisers shall inform the selected participants by the end of September. Participation is free, and accommodation is provided. The selection of participants is highly selective to facilitate personalised and privileged interactions between the participants and the researchers. Participants shall receive a certificate of attendance and achievement from PSU and NUS.

Date of Workshop: 14th to 16th October 2022
Location: Prince of Songkla University, Phuket
For applications and queries regarding the workshop, please
